Subject: Funding for USGS Interagency Agreement
Date: Tuesday, July 08, 2014 12:55:35 PM

We have some funds planned to add pipeline to the USGS IA. However, it would be helpful to know if any of the RPMs are considering asking for work on a site that is currently in RA or LTRA or has a Special Account so we can add some of these funds to the IA. Kathy will be initiating the paperwork to add the pipeline funds shortly. This will be the only amendment we anticipate making to the IA this year, so please let us know asap if you have any need for work at a site that meets these situations. Thanks.
